25X1

2 DEC 1958

Chief, Records Management Staff

Acting Comptroller

Request for Expansion of Grilled Area Within Records Center

1. Due to the recent acquisition of a large quantity of covert financial records from DD/P, the available space in our grilled area for storing highly sensitive and Top Secret Comptroller type records will not meet our needs for the next few years. It was anticipated in October 1955 that our request for an area of three hundred cubic feet would cover our needs for storing inactive records for approximately five years. The volume of material transferred to the Records Center has exceeded our anticipated requirements.

2. It is requested that our present grilled area be expanded by six hundred cubic feet. This additional area should provide adequate storage space, under normal conditions, for our inactive sensitive and Top Secret records through 1963.
